# **AND SUBSIDIARIES**

# NOTES TO CONSOLIDATED STATEMENTS OF FINANCIAL CONDITION DECEMBER 31, 2001 AND 2000

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# Organization

The Company's operations consist of buying and selling securities for its customers and its own account and certain underwriting and other brokerage activities. The corporate finance function arranges public and private debt and equity placement services and other off-statement of financial condition activities and products for its customers. In addition, the Company is an active underwriter of debt for municipalities and not-for-profit institutions. The Company is registered with the Securities and Exchange Commission (the "SEC") as a broker-dealer and is a member of the New York Stock Exchange (the "NYSE") and the National Association of Securities Dealers (the "NASD").

On July 27, 2001, the Company acquired the institutional business of The Robinson-Humphrey Company, LLC (Note 9). Effective with this transaction, the Company changed its name to SunTrust Capital Markets, Inc., and is doing business going forward as SunTrust Robinson Humphrey.

The Company clears all fixed-income transactions on an omnibus self-clearing basis through a third party. The Company clears all equity transactions on a fully disclosed basis through third parties.

# **Basis of Presentation**

The consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

# **Purchase Price Adjustment**

In conjunction with the January 1998 acquisition of Equitable Securities Corporation, the Company and its Parent entered into a merger agreement, whereas the Parent placed into escrow certain shares issued as purchase consideration, which were to be released at a later date. The merger agreement was amended, and in December 2001, the original purchase price was reduced by \$25,257,685. Accordingly, the reduction of purchase consideration was recorded as part of stockholder's equity in additional paid-incapital and goodwill in the accompanying financial statements.

# **Securities Transactions**

Securities transactions and related gains and losses were recorded on a trade-date basis. Marketable securities owned are valued at estimated market values, and securities not readily marketable are valued at their estimated fair value based on quoted market prices or pricing models, as determined by management. The resulting difference between cost and market is included in income. Included in securities owned on the accompanying consolidated statements of financial condition are approximately \$6.7 million and \$4.2 million and of not readily marketable securities as of December 31, 2001 and 2000, respectively. This balance is principally comprised of restricted stock and warrants.

# **Recent Accounting Pronouncements**

In June 2000, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 133, as amended by SFAS No. 137 and SFAS No. 138, was adopted January 1, 2001 without a material effect on the consolidated financial statements of the Company, as the Company records all of its derivative instruments at their fair value and recognizes the changes in the derivative's value currently in earnings.

In September 2000, the FASB issued SFAS No. 140 "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities." This statement provides consistent accounting and reporting standards for distinguishing transfers of financial assets that are sales from transfers that are secured borrowings. SFAS No. 140 did not have a material effect on the Company's consolidated financial statements. For related disclosures, refer to Notes 4 and 6.

In July 2001, the FASB issued SFAS No. 141 "Business Combinations." SFAS No. 141 eliminates pooling of interests accounting and requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. SFAS No. 142 eliminates the amortization of goodwill and other non-separable intangible assets and requires that goodwill be evaluated for impairment by applying a fair value-based test. The Company adopted these new standards as of January 1, 2002, in accordance with the established effective dates, except for its acquisition of The Robinson-Humphrey Company, LLC (Note 9), which was adopted effective the date of acquisition in accordance with the standard. Amortization of goodwill for fiscal 2001 and 2000 was approximately \$5,068,844 and \$5,150,343, respectively. The Company completed its first annual impairment tests as of January 1, 2002, with no impairment.

In August 2001, the FASB issued SFAS No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 supersedes both SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of," which previously governed impairment of long-lived assets, and APB Opinion No. 30, "Reporting the Results of Operations – Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," which addressed the disposal of a business segment. This Statement improves financial reporting by requiring one accounting model to be used for long-lived assets to be disposed of by sale and by broadening the presentation of discontinued operations to include more disposal transactions. The Company adopted the new standard effective January 1, 2002, with no material impact on the Company's financial statements.

#### Use of Estimates

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statements of financial condition. Actual results could differ from those estimates; however, management does not expect such variances to be material to the financial position or the results of operations of the Company.

# **Furniture and Equipment**

Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

# Leasehold Improvements

Leasehold improvements are recorded at historical cost. Amortization is computed using the straight-line method over the lesser of the economic useful life of the improvement or the term of the lease.

# **Exchange Memberships**

Accounting principles generally accepted in the United States require that exchange memberships owned be valued at cost or at a lesser amount if there is an other-than-temporary impairment in value. The Company has stated its exchange memberships owned at cost, which approximated \$2,300,000, as part of other assets in the accompanying financial statements. The costs and carrying value of the exchange membership approximated its fair value as of December 31, 2001.
